

Enterprise Risk Retainer

Preparing you for the Unknown and Mitigating
the Damage, Regardless of your Risk Event

Enterprise Risk Experts on Retainer

An Enterprise Risk Retainer with Kroll provides organizations with a pre-negotiated agreement to obtain rapid incident response support in the case of a potential major security incident, as well as service credits to use across wider Cyber Security, Financial Crime, Regulatory Compliance, Physical Security, AI Governance, Due Diligence services and more.

The Challenge - Preparing for and Responding to Multiple Acute Risks

Enterprise Risk Leaders are facing mounting pressures to effectively respond to acute risk events that can drastically reduce share prices and stakeholder trust – from adapting to changing regulations, responding to cyber incidents and online misinformation, threats to executives and more.

However, getting quick support to reduce these risks can be a challenge due to the following:

- **Having separate agreements and contracts** with different service providers becomes more difficult to budget and slows delivery
- **A Retainer may only be in place with a Cyber Incident Response** provider, but no such agreement exists for any other forms of enterprise risk such as legal, fraud, physical security etc.
- **Unknown or previously unforeseen risk events** that the organizations are unprepared for
- **Slow and expensive recruitment of in-house staff** to deal with a risk event

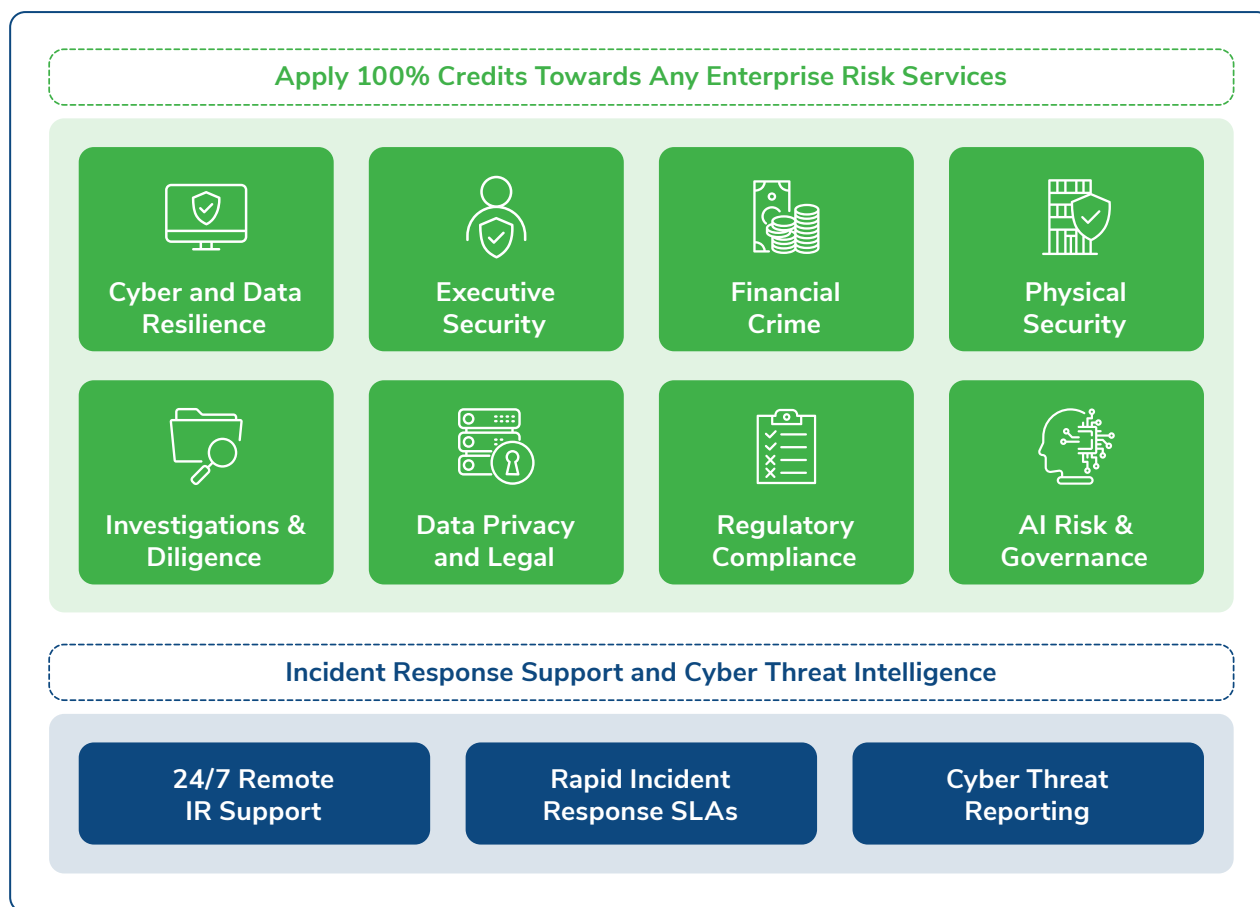

Kroll Enterprise Risk Retainer - The Speed Dial for Mitigating Any Risk Event

By consolidating risk management needs into a single, flexible retainer agreement, organizations can move faster, budget smarter, and respond effectively—without the delays of multiple contracts or ad-hoc solutions.
